081041

The Mesh D-Roll backrest is a shorter, more compact version of the original Mesh Sitback Rest®.

080050

Air-adjustable low-back cushion and shoulder straps redistribute weight to stop backpack injury.

081040

Constructed from nylon, which is known for its strength and resiliency.

LUMBAR SUPPORTS

Abdominal Binder Plus

- Comfortable plush elastic
- CorEdge finish for comfort
- L/XL +12" to fit larger statures

Description

080704 Abdominal/Back Support 9"

Abdominal Binders

- Comfortable, multi-tiered plus elastic contours easily, helps prevent rolling.
- CorEdge® finish for comfort
- Universal sizing.

White	Size	Chest
080034	9"	24" to 48"
080035	12"	24" to 48"

Universal Rib Belt

- Comfortable plush, two-tiered, 6" high elastic body.
- Women's belt contours to 4" around bustline for comfort.

White	Size	Chest
080031	Male	24" to 48"
080032	Female	24" to 48"

Universal Trochanter Belt

- Elastic inset allows for additional stretch and compression; 100% stretch elastic pulls increase intra-abdominal pressure and help relieve muscle strain while supplementing abdominal muscles.

	Size	Hips
080278	Small/Med	Under 38"
080279	Large/XL	Over 38"

The Corfit® System Lumbar Support

- Wicking material draws moisture away while the CorEdge® finish adds comfort and compression without binding or irritation.

	Size	HIP
080230	Small	27" to 39"
080231	Regular	32" to 47"
080232	X-Large	40" to 54"
080233	XX-Large	46" to 62"

Criss Cross Controlled Support

- Can be used with a heat moldable insert (sold separately).

	Size	Waist
080266	X-Small	24" to 29"
080267	Small	30" to 34"
080268	Medium	35" to 39"
080269	Large	40" to 45"
080270	X-Large	46" to 52"
080271	XX-Large	53" to 60"

080704

Designed for those of large stature

080034

Versatile, use as an ab binder, back support, rib belt or post-operative belt.

080031

Stabilizes and supports the rib cage with CorEdge® finish for comfort. Can be worn next to skin.

080279

Permits universal sizing with maximum support to the sacrum with a durable, plush, 4" high hook-and-loop laminate closure.

080230

Patented fitting system, fits 95% of users.

080266

Features (3) closures, overlapping abdominal straps, even tension at top and bottom, contoured in front for comfort and soft plush elastic. Easy to put on even for patient of below normal strength.

080234

Dual elastic side pulls, 9" high, reinforced, criss-cross back for maximum compression and support. CorEdge® finish for comfort (6) flexible stays prevent rolling.

080258

Features overlapping closure, contoured to 10" in front with 12" elastic for higher support in back.

080244

Features a pocket for the P.R. Heat Moldable Insert, #080265, or any suitably sized hot/cold pack, contour top and overlapping closure designed with two layers of elastic.

080265

Low temperature plastic molds directly to the skin, allowing a perfect mold and maximum support from a light 6 oz. unit. Inconspicuous under clothing.

080239

10" high back tapers to 6" in front, elastic construction with CorEdge® finish, (4) flexible stays prevent rolling and customized compression from (2) independent, triple-action pulls.

081033

Dual Pull Elastic Criss-Cross Lumbar Support

	Size	Waist	Hips
080234	Small	22" to 25"	28" to 32"
080235	Medium	26" to 31"	33" to 37"
080236	Large	32" to 37"	38" to 42"
080237	X-Large	38" to 43"	43" to 47"

081034	Regular 9" Tall (32-43" Hips)
081035	X Large 10" Tall (40-52" Hips)
081036	XXL 10" Tall (46-58" Hips)

LUMBAR SUPPORTS (CON'T)

The Industrial Lumbar Support

- Elastic, crisscrossing abdominal straps, (4) plastic back stays and removable suspenders.

	Size	Waist Measurement
080272	X-Small	22" to 26"
080273	Small	26" to 30"
080274	Medium	30" to 24"
080275	Large	34" to 38"
080276	X-Large	38" to 42"
080277	XX-Large	42" to 46"

LordoLoc® Back Support

- Four, 9.25" flexible, stainless steel stays integrated at the back can be adapted individually.
- Easy to put on and take off, features Velcro® fastenings with hand straps.
- Additional elastic tension straps permit individually adjustable compression and thus variable adjustment of the stabilizing effect.
- This elastic, breathable support adapts itself to the anatomy, and has a compact design for maximum comfort.

	Size	Circumference
089200	1	27.5"-31.5"
089201	2	31.5"-35.5"
089202	3	35.5"-39.25"
089203	4	39.25"-43.25"
089204	5	43.25"-47.25"
089205	6	47.25"-51"

080272

Supports the lower back and abdominal muscles, encourages proper lifting techniques and helps reduce the possibility of job related back injuries.

089200

Excellent stabilizing orthosis for the lumbar spine and lumbosacral transition with muscle-activating and relieving properties.

LumboTrain® Back Support

- Velcro® fastenings and hand straps allow for easy application and adjustment, even for people with arthritis. Lightweight, breathable knit will not retain heat and sweat. Machine washable.

Titanium (Gray)	Size	Circumference
051561	1	27.5" to 31.5"
051562	2	31.5" to 35.5"
051563	3	35.5" to 39.25"
051564	4	39.25" to 43.25"
051565	5	43.25" to 47.25"
051566	6	47.25" to 51.25"

SacroLoc® Back Support

- Can be worn under clothing.
- Inelastic knit fabric provides stabilization to the pelvis and iliosacral joint.
- Tension straps increase stabilization and can be individually adjusted for strain relief.
- Two-part friction pad with massage knobs provides a friction massage which promotes circulation and improves muscle tone.

	Size	Circumference
083174	1	27 1/2" - 33 1/2"
083175	2	33 1/2" - 39 1/2"

USE

083722

Designed to compress and support sacroiliac joints and relieve stress and instability at sacroiliac joints.

080082

Buckle design allows for easy use.

080316

Stabilization Pad™ fits between sacral sulci and provides form, comfortable support and proprioceptive input to the sacral area. Semi-elastic construction allows a snugger fit and eliminates riding up with patient activity.

080313

080280

Designed to properly fit obese patients, providing both lumbar and abdominal support. Its unique abdominal support pad contains and lifts the abdomen.

080293

Maximum comfort for women with moderate symptoms. Lightweight ventilated elastic is cool and feather soft to the skin.

080283

The large, cushioned Velcro® pad is contoured to provide lift with no undesirable abdominal compression. Reduces pressure at the pelvis and improves circulation in the legs. Gently compresses the pelvic ring, restoring its integrity and reducing pain.

081027

Rapid back pain relief with adjustable posture correction.

080896

Can be worn directly on the skin or over clothing. Anchors around the waist, discourages stooped shoulders, and assists in alignment of the entire spine.

080897	Medium	30" to 42"
080898	Large	42" to 54"

SHOULDER SUPPORTS

OmoTrain® Shoulder Support

- Silicone insert provides intermittent compression to the soft tissue of the joint, which increases circulation, decreases pain and swelling.
- Knitted shoulder support incorporates an adjustable, anatomically contoured silicone insert.
- Ideal for shoulder pain, post-operative, rotator cuff rehabilitation, shoulder subluxation, arthritis and nerve palsy.
- Anatomical knit with graduated compression at the edges prevents constriction of circulation.
- Lightweight, breathable knit will not retain heat and sweat.
- Machine washable.

080219	X-Large; 12" to 14"

EpiPoint® Elbow Strap

- Pressure may be controlled by an adjustable elastic band for a comfortable, precise fit.
- A red warning section on the adjustable band indicates when the strap may be pulled too tightly providing exact compression everytime.
- The pivoting compression pad can be adjusted for the right or left arm, providing correct anatomical pressure and placement for each user.
- EpiPoint provides a high degree of stability while allowing the trap to respond dynamically to muscle movement.

Elbow Straps	Description
089220	One Size Fits All

080129

080215

10" pull-on sleeve, contoured for comfort is used for strains, sprains, arthritis, bursitis and turf protection.

089220

EpiPoint is an elbow strap for the targeted application of pressure/relief over muscles and tendons on the outside of the forearm.

Epitrain® Elbow Support

- Comfortable, lightweight support ideal for epicondylitis, elbow strains or sprains, overuse syndromes, and pre and post-operative conditions, chronic edema and does not retain heat.
- Promotes proprioception, thus heightening sensory awareness in the elbow for increased joint stabilization.

Radial Tennis Elbow with Pad

- Features a wide, circumferential, elastic strap, and has an orthopedic felt pressure pad for extra compression and to further inhibit muscle rotation.

	Description
080017	Small/Medium; 9" to 11"
080018	Large/X-Large; 11" to 14"
080019	2X-Large; 14" to 16"
080209	X-Small; 8" to 9"

082720

Knitted support incorporating (2) anatomically contoured silicone inserts surrounding the medial and lateral epicondyles and lying over the flexor and extensor muscles.

Graduated compression at the edges prevents constriction of circulation.

Silicone insert leaves the epicondyles pressure free and provides intermittent compression to the soft tissue of the joint, leading to increased circulation which reduces swelling and edema.

080124

Comfortable pneumatic compression for epicondylitis helps reduce swelling and edema.

080017

Use for indications of epicondylitis.

ELBOW SUPPORTS (CON'T)

R.O.M.E.O. (Range of Motion Elbow Orthosis)

- Forearm and humeral (upper arm) cuffs adjust for comfort and to accommodate post-operative bandages and swelling.
- The light weight R.O.M.E.O. elbow hinges adjust in 30 degree increments using the included hex wrench.
- Removable hand section aids in the prevention of supination/pronation and is length adjustable with the included hex wrench.
- Fits right or left arm.

Fits Right or Left Circumference at Mid-Bicep

083875	8" - 11 1/2"
083876	11 1/2" - 14 1/2"
083877	14 1/2" - 19"

080195	X-Large; 12" to 14"

WRIST & HAND SUPPORTS

3pp™ Carpal Lift™ NP

- Soft, foam-lined splint lifts and supports the wrist to reduce pain on the ulnar (small finger) side of the wrist caused by weakened or torn TFCC ligaments.
- A soft foam pad and adjustable straps lift the ulnar carpal (wrist) bones to reduce the popping and pain felt when gripping, rotating the forearm or pushing up from a chair.
- Easy one-handed application, this splint is soft and breathable for all day comfort. Machine or hand washable. Latex free.

083870	7 1/4" - 9"

3pp™ U Wrap™

- This universal wrap works by supporting the muscles and tendons to relieve pain and apply flexible support.
- Unlike elastic straps, the 3pp U Wrap will not roll or slip making it ideal for use during sports or gym activities.
- Hook closure attaches anywhere on the fabric so the U Wrap is fully adjustable.
- A removable stay is included to apply extra support wherever it's needed.
- Machine washable. Latex free

	Description
083874	One Size Fits Most

083875

Adaptable elbow orthosis includes adjustable hinges and cuffs.

080191

10" pull-in sleeve, contoured for comfort is used for strains, sprains, arthritis, bursitis, turf protection and epicondylitis.

083869

Straps extend from the palmar aspect to lift and support the ulnar carpus and ligaments. Palmar pad cushions and supports the ulnar carpus and pisiform.

083874

One contoured wrap. Five or more ways to use it for the hand, elbow, ankle, and foot.

083867

Hook closure attaches anywhere for optimal fit and adjustability.

3pp™ Wrist Wrap NP

- This wrap is fully adjustable so the wearer determines how much support to apply.
- Lined in soft, breathable foam, this wrap will not roll or slip making it ideal for use in sports or gym activities.
- A removable stay is included to apply extra support wherever it's needed.
- Machine washable. Latex free

	Description
083867	Sm/Med
083868	Med/Lrg

Active Innovations - DWO (Dynamic Wrist Orthosis)

- Contoured dorsal design is light-weight; low profile design limits flexion and extension while allowing finger dexterity. Palm remains open and free from obstruction while protecting the carpal tunnel.
- Functional strapping system includes proximal neoprene elastic strap for individual fit and non-elastic distal and wrist straps for stabilization and comfort.
- Dynamic performance hinge allows 20 degree ulnar/radial deviation while protecting movements that may be a cause of carpal tunnel.

Wrap-around sling "hugs" the CMC joint to reduce the subluxation and grinding pain from arthritis.

HAND SPLINTS

Comforter™ Splint

- The Comforter Splint holds the wrist and MP joints (large knuckles) of the fingers straight to reduce stress on muscles and tendons, making it a great night splint for arthritis sufferers.
- Flexible padded stays protect the fingers to lessen the damaging effects of arthritis and certain neurological impairments.
- The small joints of the fingers and the thumb are free to allow the wearer to manage bedding and nighttime activities. The wrist and the metacarpal joints are supported in a neutral position.
- The neoprene straps include finger holes for independent application and removal of the splint even by those who have difficulties with fine motor skills.
- Quilted cover is removable and machine washable. Latex free.

083899	Large;	3 3/8" - 3 5/8"

Polycentric Hinged Ulnar Deviation™

- The Polycentric Ulnar Deviation Splint fits the top of the hand, leaving the palm free for gripping objects. The patented polycentric hinge allows full flexion (bending) and extension (straightening) of the fingers.
- Softly cushioned finger stays can be opened and closed to make this splint easy to put on and take off even if your fingers are swollen.

083895

This softly padded splint provides the rest needed to reduce inflammation and morning stiffness caused by Rheumatoid Arthritis.

083881

Recommended for persons with MP ulnar deviation that can be corrected with mild to moderate force.

083889

This split improves alignment of strongly-deviated fingers.

FINGER SPLINTS

3pp™ Side Step™ Splint

- Adjustable splint applies gentle tension to straighten the middle (PIP) or end (DIP) finger joint.
- Ideal to prevent the progression of deformity in osteoarthritis. May help reduce the formation of Heberden's or Bouchard's nodes on the finger joints.
- Soft foam-lined straps and pads are Latex free. Sizing and fitting by a health care provider is recommended.

	Description
083904	Small
083905	Medium
083906	Large

3pp™ Step Down™ Splint

- Lightweight wire splint allows the wearer to control the force to gradually bend fingers stuck in a straight or extended position.
- The 3pp Step Down Splint will help reduce a mild to severe contracture caused by a fractured, jammed finger or tendon injury.
- Soft straps and pads are Latex free.

	Description
083907	Small
083908	Medium
083909	Large

3pp™ Step Up™ Splint

- Lightweight wire splint uses adjustable tension to straighten fingers stuck in a flexed or bent position. The wearer controls the amount of force applied.
- Whether due to a jammed or fractured finger, or a tendon injury, the 3pp Step Up Splint will help reduce a mild to severe contracture.
- Soft foam-lined straps and pads are Latex free. Sizing and fitting by a health care provider is recommended.

	Description
083901	Small
083902	Medium
083903	Large

083904
Reduce IP deviation due to osteoarthritis.

083907
Adjusts from 0 degrees to near full flexion.

083901
Provides adjustable tension to restore full IP extension.

Oval-8

- A fit for every finger - Available in splint sizes 2 through 15, each oval-8™ splint has size adjustability built into the angled band and can be adjusted with heat for a precise fit everytime.

Oval-8™ Finger Splints stabilize and align the PIP and DIP joints. Can be used to treat tendon or ligament injuries, protect healing fractures, control unstable joints and more.

081713

The world's first noninvasive solution for painful trigger finger.

080090

Buckle design allows for easy use.

080130

080370

Pressure is placed on the patellar tendon which guides the kneecap into place.

080703

Choice of black or beige

FINGER SPLINTS (CON'T)

Active Innovations - tfs (Trigger Finger Solution™)

- Relieves pressure on the affected area so patients can resume daily activities.
- Protects A-1 pulley and allows the hand's protective fat pad to heal.
- Can be worn on any finger with complete freedom of movement.
- Developed by an Orthopedic Surgeon.

	Description

KNEE SUPPORTS

Cho-Pat® Dual Action Knee Strap

- Helps reduce the pressure that causes decubitus ulcers. Features cotton/poly fabric filled with cool, Corefill® polyester fiber and hook-and-loop closures.
- Applies constant dynamic forces to the surrounding areas of the knee, reducing the likelihood of overuse syndromes. At the same time the strap allows for full mobility while providing maximum benefits.

	Size	Knee
080130	X-Small	Less than 10"
080131	Small	10" to 12.25"
080132	Medium	12.25" to 14.5"
080133	Large	14.5" to 16.5"
080134	X-Large	16.5" to 18"

Cho-Pat® Patellar Strap

- Elevates the kneecap slightly.
- Provides symptomatic relief of acute/chronic pain associated with patellartendonitis, Chondromalacia Patella Syndrome, Osgood-Schlatter's Disease and Iliotibial Band Syndrome.
- NOTE: Not recommended for those with large varicose veins crossing the knee.

	Size	Knee
080370	Small	10" to 12.25"
080371	Medium	12.25" to 14.5"
080372	Large	14.5" to 16.5"
080373	X-Large	16.5" to 18"

Extended Plus Size Supports 2X - 4X

- Designed to provide optimum support
- Plush latex-free neoprene in wrap-around style fits either knee
- Extra padding around patella adds additional warmth and support

	Description
080703	Knee Support

Gametime Brace

- Lightweight composite w/contoured pads, low profile and versatile strapping.
- Extension stops at 5-15-30-80-90 degrees and flexion stops at 15-30-60-90 degrees.
- Suitable for mild MCL, LCL, and/or ACL, PCL instabilities, this neoprene brace is an ideal intermediate level product that can be used in sporting events.

GenuTrain® A3 Knee Support

- Treats osteoarthritis, patellar subluxation, Chondromalacia, patellar dislocation, anterior knee pain, knee instability, Osgood-Schlatter's disease and jumper's knee.
- Integrated guide in silicone helps patella from shifting out of place.
- Centers the patella during movement and stimulates the skin receptors and nerve endings in the muscle-tendon transition around the knee to enhance proprioception and decrease pain and swelling.
- Lightweight, breathable knit optimizes temperature regulation for a cool, comfortable fit.
- Counteracts patellar malalignment and provides a friction massage on the receptor zones of the knee joint reducing pain and swelling.

GenuTrain® Knee Support

- Breathable knit provides controlled compression to decrease pain and swelling.
- Graduated compression at the edges prevents constriction of circulation.
- Designed to be worn during activity, ideal for treating knee strains or sprains, pre- and post-operative inflammation, chondromalacia, arthritis, degenerative joint disease, adolescent knee pain, post-arthroscopy, recurrent knee pain and knee instability.
- Contoured silicone insert around the patella leaves the patella pressure-free and gently massages the soft tissue of the joint to improve circulation.

080876	X-Large/XX-Large; 16" to 20"

KneedIT® and KneedIT XM®

- Assists in the relief of minor knee pain by placing gentle pressure along the medial and lateral soft tissues of the knee.
- Can be worn on the right or left knee and easily adjusts to fit the contour of the patella and patellar tendon.

One Size Fits Most Description

080346	KneedIT®
080347	KneedIT XM®; With Therapeutic Magnet

080415

Use for patellar instabilities, subluxation and dislocation, chondromalacia, and post-operative management.

080871

180 degree hinges set in enclosed pockets.

080872

2 medial and lateral spiral stays.

080346

Enables the muscles to relax and reduces stress on tendons and muscles.

080374

Offers light support and a popliteal cut-out that is used for minor strains and sprains

080435

Use for Osgood-Schlatter Syndrome

Open Popliteal Sleeve

Description

080374	X-Small; 12" to 13"
080375	Small; 13" to 14"
080376	Medium; 14" to 15"

080378	X-Large; 16" to 18"
080379	XX-Large; 18" to 20"

Osgood-Schlatter Syndrome Support

- This 13" long sleeve has a 1/4" thick pad to protect the tibial tuberosity, along with a circumferential strap with an elastic inset for pressure to the area.

Description

080435	X-Small; 12" to 13"
080436	Small; 13" to 14"
080437	Medium; 14" to 15"
080438	Large; 15" to 16"
080439	X-Large; 16" to 18"
080440	XX-Large; 18" to 20"

Palumbo Patella Tracker

- Use in Osgood Schattlers
- Lateral pad control insert is constructed of visco-elastic material to better conform and adjust to the floating action of the brace.
- The new laterally positioned elastic insert in the patella strap between the anchor and pad allows for the “floating” action which repositions the pad according to the full physiologic range of motion to the knee.

080364	X-Large; 16" to 18"
080365	XX-Large; 18" to 20"

Universal Knee Wrap

- This universally sized knee support with movable felt horseshoe may be used for light support and minor injuries.

	Description
080433	Universal
080434	Oversize

080380

13" Long and 1/8" thick sleeve with anterior oval pad that is used for strains and sprains, post-operative rehab or arthritis of knee joint.

080386

13" sleeve with anterior oval pad that is used for strains and sprains, post-operative rehab, arthritis of knee joint or turf protection.

080392

Use for subluxation of the patella and chondromalacia.

080403

Use for light support and minor injuries.

080360

Use for lateral/medial collateral ligament instability, or anterior/posterior cruciate instability.

080433

Use for light support and minor injuries.

SHIN SPLINTS

Shin Splint Compression Wrap

- Alleviates conditions of medial and anterior tibial stress syndrome.
- Absorbs stress and prevents additional tearing of soft tissue away from tibia.
- To be worn during activity to reduce strain.

Black, One Size Fits All	Description
081781	Shin Splint Compression Wrap

THIGH SUPPORT

Hamlock™

- Reduces pain and strain, facilitating healing and a more rapid return to normal activities.
- Indications: Hamstring strains, sprains and pulls.

	Description
080527	X-Small; 18" to 19"
080528	Small; 19" to 20"
080529	Medium; 20" to 22"
080530	Large; 22" to 25"
080531	X-Large; 25" to 28"

MyoTrain® Thigh Support

- Similar to a muscle taping bandage.
- Prevention, especially against repetitive injuries.
- Anatomical, breathable knit with siliconized and pressure reducing edges.
- Both pads acute and functional can be added and removed.
- Velcro straps make it easy to put on and remove and provides individualized compression.

	Size	11 3/4" Above Knee
083279	1	17 1/4" to 19"

Ankle Lok® by Swede-0

- Full elastic back ensures complete unrestricted blood flow to the Achilles' tendon and virtually eliminates the chance for blistering.
- Exclusive Ankle Lok® offset panel traps the laces between the inner and outer flap to hold the laces tighter longer than any other brace.
- Exclusive close spaced eyelets concentrate the holding power where it's needed most creating the most effective heel lock.
- Arch fits the contour of the foot and is seamless so it virtually eliminates irritation to the bottom of the foot.
- Triple layer vinyl laminate and internal U-shaped spiral stay provides extra support.

Combines the superior comfort of a lace-up brace with the greater support provided by a rigid brace

083054

Utilizes twin dual-purpose straps.rigid brace

AchilloTrain® Achilles Tendon Support

- Anatomically contoured viscoelastic insert runs alongside the Achilles tendon to provide effective pressure-relief. When active, it provides an intermittent massage to help reduce pain and swelling.
- Provides peak shock load reduction to joints and back with both heel cushions in place.
- Silicone heel-wedge is incorporated in the support to raise the heel for pain relief of the Achilles tendon.
- Non-binding, lightweight, breathable knit remains cool and moves with the body for maximum comfort.
- Ideal for Achilles tendonitis, Achilles tendon strains, bursitis of the Achilles and post-Achilles tendon rupture.

Extended Plus Ankle Brace

- Soft nylon lined neoprene support with latex free elastic straps.

Description

080705 2X - 4X

080670

Made from polypropylene to a 1/8" thickness for necessary rigidity and comfort and can be heated for further modification and individual fit.

080705

Excellent support, flexibility, warmth, and comfort.

081704

Comfortably and effectively relieves the painful symptoms of Plantar Fasciitis.

080488

Made of lightweight neoprene fabric and is simple to apply.

081716

Nighttime Anterior Positioner

081718

Designed to provide relief from pain and discomfort of plantar fasciitis and Achilles tendonitis.

PLANTAR FASCIITIS SPLINTS

Active Innovations - DNS® (Dorsal Night Splint™)

- Patented clamshell supports soft tissue and metatarsal while holding foot in a neutral position during sleep.
- Triple-stitched, stretch resistant strap for exceptional support.
- Thick, lightweight padding improves comfort along with anti-slip pad on bottom for safe nighttime ambulation.
- The Dorsal Night Splint™ can also be used for severe ankle sprains, Achilles tendonitis, foot drop/neurological deficits, muscular strains and many other conditions that require ankle stabilization in a neutral position.

Description

081704	Small
081705	Large

AirHeel™

- Specifically designed to treat plantar fasciitis, Achilles tendonitis, and heel pain.
- Using 2 interconnected aircells located under the foot arch and in back of the heel, the Air Heel applies pulsating compression with every step to help reduce swelling and discomfort and enhance circulation.

Warwick Heel Wedge

	Description
082037	Small
082038	Medium
082039	Large

080700

Provides cushioning and shock reduction to joints and back. Ideal for pronation, varus, bow legged, supination, valgus, knock knee, lateral ankle sprains and osteoarthritis.

080697

Anatomically tapered heel rim prevents sliding. Ideal for heel pain, joint, back and arthritis pain, and leg length discrepancies.

080688

Medical grade silicone with softer blue silicone at the heel and ball of the foot to aid in the desired realignment of metatarsal regions and to provide additional cushioning.

080695

Non-compressible, viscoelastic silicone heel cushions have a softer ble "spot" correctly placed for additional cushioning where heel pain originates.

082037

A varus/valgus wedge with a slight incline that can be used for pronation or supination applications and other clinical problems, such as problems with the medial collateral ligament, located on the inner side of the knee.

FOOT SUPPORTS (CON'T)

Adjust-A-Lift Heel Lift

- Three layer construction results in only three sizes because the layers are removable
- Unsurpassed patient comfort
- Applicability to several clinical conditions

	Description
